

Welcome to the Summer Teapot Mouse House!

Here's what to do:

1. color the house
2. cut out the house
3. cut open the windows (just cut around three sides, leave one side near one shutter or near the hinges)
4. cut open the door (start at the bottom left and cut around until you reach the hinges)
4. fold the uncut edge of the windows and the door so that they're open
5. work on the page with the inside pictures, and follow the instructions there to finish!

Summer Teapot Mouse House

(inside pictures)

1. color the little scenes
2. cut out along the edge
3. glue back side to front; put glue only along the edges of the house
4. put finished house on the wall near the floor!
